DESCRIPTIONS OF ITEMS ILLUSTRATED AT LEFT

(A) GIANT AZTEC FLOWER

1363 Tigridia. 18-24 in. (Color illus. A opposite) Chances are you've never seen a flower as gorgeous as this! Big, showy, brilliantly colored, Tigridias have contrasting spotted throats. As easy to grow as Glads, they bloom all summer, producing new flowers every day from July to frost. You'll be amazed at the brilliant colors, the gorgeous combinations of shades in these truly exotic flowers! You'll look at them as early as you can, every day, to see how many more blooms have opened with the first touch of the morning sun! Remember that although the flowers look exotic, they are really very easy to grow. Tigridias do love sunshine, so save a sunny corner of your garden and enjoy their gorgeous beauty all summer long. At this special low, low price you can't afford to be without them!

(B) PINK CHEEKS PETUNIA

F2922 15 in. NEW for '63! A Breck's exclusive! (Color illus. B opposite) Big, wide-open, 5-in. white-throated flowers that shade to soft pink at the edges. Petals are beautifully waved and ruffled. A strong, healthy F1 hybrid that will amaze you with its wealth of bloom all summer long! Pink Cheeks is truly different — an unusual combination that is bright, yet has a dainty effect that you will enjoy in the garden, in window boxes, or in lovely flower arrangements like the one being admired by the pink-cheeked little girl in our illustration.

New & Unusual For '63!

(C) COLORFUL FLAMINGO CALADIUMS

1094 (Color illus. C opposite) Take a dull, shady corner, plant Breck's Flamingo Caladiums, and watch it burst forth into the most colorful spot in the garden! Grown for their foliage, Caladiums are the gayest, most fantastic plants you have ever seen. Beautiful reds, pinks, whites and greens combine to make a kaleidoscope of color that will thrill you all summer long! Start them indoors or plant in the garden when weather is warm. They're amazingly easy to grow, and Breck's big, jumbo bulbs will give you big, beautiful plants in a shorter time than the smaller bulbs that are often offered for sale. You will enjoy them for years if the bulbs are taken up before winter and stored in a cool place until spring.

Mixed Colors — jumbo bulbs.

(See page 45 for separate colors)

(D) DWARF LILY OF THE NILE

(Agapanthus — Peter Pan)

1006 NEW for '63! (Color illus. D opposite) One of the most beautiful blues for your summer garden . . . now available, for the first time, in a size that fits all gardens. Peter Pan sends its big blue spheres to a height of 18 in. — well above the foliage. Starting in early summer, the flowers last for weeks. May be planted in pots or in tubs for beautiful patio accents. Not winter hardy in cold climates, but easy to care for. In colder climates, the tubers may be planted in the garden and taken up each fall, or they may be grown in large flower pots or small tubs which are easy to take indoors for the winter. They keep well when handled this way . . . stored in a cool place, where an occasional watering will keep them in perfect condition for the next year.

Each, 1.95; 3 for 4.95

(E) SALMON PYGMY SALVIA

F3490 12 in. NEW! (Color illus. E opposite) Well-filled spikes of bright, salmon-pink tubular flowers, held well above the neat, dark green foliage, make this one of the best Salvias we have seen. Blooming as early as June, it will continue in full, glorious color until frost. Color blends well with either White Fire or Purple Salvias (see page 22). If you have always thought of Salvias as harsh brilliant scarlet, you'll be pleased with the lovely shadings of Salmon Pygmy. It's a color that will blend so well with your other garden flowers!

Pkt. 35¢

(F) THUMBELINA ZINNIA

F4620 6 in. AAS Gold Medal. NEW for '63! (Color illus. F opposite) A unique new Zinnia . . . the most useful, most distinct form to be introduced in almost 5 years! Only six inches high, when fully grown, covered with dainty 1 1/4-in. flowers in all the gay Zinnia colors . . . pink, yellow, scarlet, white, orange and lavender. Thumbelina actually begins to bloom when less than 4-in. high and stays in bloom all summer. A bright, colorful, trouble-free, everblooming edging. Space plants no more than 3 inches apart for solid rainbow of color. Thumbelina is at its best when sown right in the garden, where it is to grow, and thinned out as needed. When used as an edging, the little, bushy plants will blend together in a bright ribbon of color that just blooms and blooms, with little or no care!

NEW FOR '63!

We have learned, over the years, that our gardening friends . . . whether beginners or with years of experience . . . like to be different! You like the new — the unusual. You like to be first with a new color or new type of flower or vegetable. Just to the left, you will find an exciting selection of colorful seeds and bulbs. Some are brand new . . . the others deserve to be better known. The listings below will help you to find our new varieties for '63. Look for them as you enjoy pleasant hours of "fireside gardening" with Breck's "Better Gardens". Plan your garden around them, and amaze your friends and neighbors during the summer!

(A) Quicker — Safer — Easier — Economical!

Keep lawns green, produce bigger and better flowers and vegetables — the easy way! A regular program will show outstanding results in your garden! All plants require food, and Quick-Life is the safe, easy, economical way to supply their needs. A special wetting agent helps plants absorb food through leaves, as well as roots. Soak plants in Quick-Life solution while transplanting. You'll be amazed to see them take hold and start to grow at once! Feed as you water, for instant action, and watch your garden and lawn grow more beautiful right under your eyes! 1 tablespoon makes 1 gallon.

(B)

(B) TRIGGER SPRAY Sprays Any Liquid With Aerosol Action!

Now you can spray any liquid with aerosol-type action — and save the expense of costly aerosol cans! Just fill the lightweight, unbreakable, see-through plastic container with any sprayable liquid... squeeze the trigger-handle to produce a fine, billowing, mist-like cloud of spray! It's ideal for saturation spraying of insecticides, weed killers, other garden chemicals... or for spot treatments. Convenient markings let you fill it with any amount of liquid desired, up to 1 quart. Handy, too, for use with window cleaners, starch, household insecticides or deodorizers, or as an ironing-time clothes sprinkler.

(C) FERTO POTS — NATURAL COW MANURE Start Seedlings Best!

The best and easiest way to start seeds or cuttings is by planting them directly into Ferto Pots — made of rich organic material with no chemicals added — entirely odorless! When the plant is ready to set out, you simply put the pot and all right in the ground — without plant setback! Shipped bone dry, they're clean and easy to handle. As pots slowly break down, plant roots eat right through them, absorbing valuable foods. Use as liners for clay pots.

BRECK'S OF BOSTON

SEEDMEN SINCE 1818
BOSTON 10, MASS.

Dear Gardening Friend:

The silver Water Pitcher, which I am holding in the picture at left, gives me a warm, pleasant feeling. It has come down through five generations of my family. Now it is my turn to enjoy it. The pitcher was presented just 100 years ago — in 1863 — to my great-great grandfather, Joseph Breck (Founder of our company in 1818), on completion of his four-year term as President of the Massachusetts Horticultural Society.

Now, as in 1818, and in all the years between, Breck's customers are receiving nothing but the very best in seeds, bulbs and plants. Seed and plant technology has taken giant strides in these years in new breeding and production methods, and Breck's has always kept ahead of them. Breck's seeds were tested for germination, trueness to type and color, long before this became standard in the industry.

Treat yourself to the real thrill of watching tiny seeds spring into life, grow and bloom right before your eyes. It's so much easier now, with the modern aids in this catalog. Even new gardeners have success. Only with seeds can you be sure to have all the exotic new varieties . . . and save money, too, over the cost of started plants!

Incidentally, this 1963 "Better Gardens" is new from cover to cover — pictures, descriptions, design — everything! Use it to start planning your garden right now, though the days may still be cold and dark, using Breck's top-quality seeds and bulbs.

Remember that Breck's seeds and bulbs are postpaid to your door when you remit with order! Happy gardening in 1963!

Luther A. Breck

PS. New England friends please note: We now supply this catalog merchandise only by mail order.

Breck's Own Top-Quality FLOWER SEEDS

Arranged in alphabetical order
for simple, easy reference

Breck's seeds are your best buy! Think of it! A single low-cost packet of seeds will produce an abundance of your favorite flower or a season's supply of your favorite vegetable! Where else can you get so much for so little?

Breck's seeds are the finest that money can buy! Our buying staff works with specialist growers, checking every step of the way, to see that all seeds meet our rigid specifications.

Breck's seeds grow — because they are fresh! Germination must be up to rigid standards and it is checked several times before seeds are packaged.

Breck's seeds are guaranteed to grow or your money back! Breck's seeds are postpaid, too, when remittance accompanies order.

EASY-TO-GROW... BRECK'S AMERICAN GROWN

BRECK'S Color-Drama of HANGING BASKET CASCADE BEGONIAS LIKE A FLORAL WATERFALL!

Create a floral cascade of color with Breck's Cascade Begonias. Use RAINBOW SHOWER MIXTURE for multi-color effects or choose separate colors to suit your own personal taste!

Hundreds of blooms from one bulb!

Every bulb bursts forth with luxuriant rich green foliage and bears hundreds of brightly colored, Camellia-flowered blossoms that sparkle against the darker foliage. The perfectly-formed blossoms are 2 in. across on trailing 18 to 24-in. stems that will just grow and bloom all summer long! They're marvelous for hanging on porch or patio or sunroom walls, or even suspended in a window or alcove! Use hanging baskets (see page 36), or use pot hangers to suspend regular pots or jardinières to achieve graceful trailing effects.

TUBEROUS ROOTED BEGONIAS

SWEETHEART TUBEROUS BEGONIAS

(Illustrated in color above)

Tuberous Begonias have been known as "Mocking-Bird Flowers" for many years. They have earned this name by their ability to assume the shape of many other well-known flowers such as Camellias, Carnations, Daffodils — and now Roses. These big, colorful, fully-double flowers — each 5 in. and more across — have a perfectly formed sweetheart rosebud nestled in the center of the flower. Four colors are available . . . but what colors! They are rich and velvety, glowing with an intensity of color that defies description and cannot be reproduced on a printed page. Choose your favorite colors from those listed below or, better still, try our money-saving collection offer and see all four lovely colors. Grow them in shade or part shade, of course. In cooler seashore or mountain areas, they will grow beautifully even without shade.

Here is what one of our customers wrote: "As a 25-year gardener, I don't mind garden catalogs that exaggerate, but I want to tell you that the begonias you sent me last year were not 5 inches across, as you said, but 7 to 9 inches — mistaken for orchids, camellias, roses, and — the glory of our garden!"

Mrs. C. P., Silver Springs, Md.

1043 Picotee. (Color illus. C) The peak of perfection in hybrid Begonias! All the elegance of form and texture of the Camellia-flowered types, and each petal is beautifully bordered with richly contrasting, yet harmonious colors! Crisp, light pastel backgrounds are highlighted with salmon, rose, flame and coral.

PACIFIC HYBRID BEGONIAS

These are not ordinary Begonias! The huge, gorgeous, colorful blooms will thrill you with their exquisite, ruffled petals . . . their shining fluorescent colors! Pacific Hybrids are the result of a lifetime of hybridizing by the world's leading authority on tuberous Begonias — Mr. Worth Brown. They have all the vigor of hybrids . . . plus big, up to 6 in. blooms that will make you the envy of the neighborhood! Colors are so clear and lustrous that they shine with a brilliance that lights up your garden!

Plants Covered With Blooms!

Pacific Hybrids don't give just a few flowers . . . the strong, bushy plants are just covered with glorious bloom, day after day, week after week, right up to frost! Use the blooms as table decorations, too! Float them in a wide, shallow bowl and enjoy their beauty for days. In the garden, they'll brighten an otherwise dull, shady corner.

Custom-Grown, Top-Quality Bulbs!

Each and every bulb is hand selected for top quality. Bulb size varies by variety . . . some are larger than others . . . but quality and flower-size are always tops. There are no finer Begonias grown! Please order early — quantities of these custom grown beauties are always limited!

ODORLESS FISH EMULSION MER-MADE PLANT FOOD

- For Bigger Flowers!
- For Brighter Colors!

Fish has been an important plant food since prehistoric times. Recent scientific research has produced an **odorless** fish emulsion and combined it with Teac 90, a new chelating agent, to make available minerals already present in soil. 100% organic nitrogen can't burn tenderer plants . . . effects continue for weeks. Amazing results in both growth and color must be seen to be believed. Use on any plants, indoors or out. Produces spectacular effects on Begonias, Caladiums, African Violets, Coleus, etc.

HOW TO GROW BEGONIAS

For early blooms, start indoors in soil or dampened peat moss in February or March. Begonias may be grown in boxes or flats, but the Fiber Pots or the Begonia Starter Sets are ideal. Just set tubers into soil or peat moss, hollow side up, and covered not over 1/2 inch. Water sparingly until they sprout, increasing the amount as leaves appear. Choose a window or porch with good light, temperature from 60 to 70 degrees. After a few weeks, plants will have extensive root systems and may be transplanted into 8-in. pots (See page 71). Set outdoors after all danger of frost is past. Choose a shady spot that is sheltered from strong winds.

BEDDING-SIZE BEGONIAS

1035 Giant, ruffled Camellia-flowered Begonias — a special economy size that lets you use even more for mass effect! Plump, American-grown bulbs in a hand-picked mixture that produces Giant, colorful flowers! Unbelievably low priced!

MINIATURE GLADS

These dainty flowers, on straight, strong stems, are the jewels of the Gladiolus family. Their size — barely 3 in. across — and grace have made them extremely popular for flower arrangements, corsages, etc. They bloom earlier than the large varieties . . . extending the Gladiolus season. (Color illus. G, page 67)

1240 Atom. Clear vermillion with a gold edging is tops! Spikes are about 3½-ft. straight. Approx. 16 buds per stem. (Color illus. G-2, p. 67) 10 for 1.40; 25 for 3.15

1241 Bo Peep. A miniature queen, of soft buff-pink with yellow-cream throat. 8 ruffled florets open on the 3½-ft. spikes. (Color illus. G-1, p. 67) 10 for 1.40; 25 for 3.15

1278 Creamette. NEW for '63! (Color illus. G-3, p. 67) Beautifully ruffled light cream with deeper throat. Opens 7 flowers at once on 20 bud spike. Very early. 50¢ ea.; 3 for 1.25; 10 for 3.75

1265 Daintiness. NEW! Very heavily ruffled 3½-in. flowers are creamy-white with a deeper throat. Opens 8 flowers at once on a strong stem. Best white miniature. (Color illus. G-6, p. 67) 10 for 1.40; 25 for 3.15

1379 Dusky Lad. NEW for '63! Exotic mahogany and yellow combination, overlaid with smoky lavender. Opens 7 dainty ruffled flowers. Very unusual! 3 for 65¢; 10 for 2.00; 25 for 4.50

1270 Frisky. AAS. NEW for '63! A lively, frolicsome ruffled scarlet showing just a hint of gold at the petal edge. Frisky opens 8 flowers that sparkle in sunshine. A delightful miniature. 35¢ ea.; 3 for 1.00; 10 for 2.90

1271 Goldilocks. AAS. NEW for '63! A charming miniature that has everything — lovely, clear golden-yellow color, beautiful sculptured form. ideal well-proportioned spikes and early blooms. 35¢ ea.; 3 for 1.00; 10 for 2.90

1243 Green Thumb. NEW! The first "green" miniature. Dainty green buds open to beautifully ruffled flowers of a soft greenish yellow. Tall, 16 bud spikes open 7 flowers at one time. Popular with flower arrangers because of its dainty form and delightful color. 10 for 1.40; 25 for 3.15

1381 Leilani. NEW for '63! Clear, soft rose ruffled flowers with soft, creamy throats . . . a gorgeous combination! Usually opens 6 to 7 bud spike. (Color illus. G-5, p. 67) 3 for 65¢; 10 for 2.00; 25 for 4.50

1380 Lil Abner. NEW for '63! Striking deep yellow with red petal edges and bold scarlet throat. Slender, wiry spikes open to 6 to 8 out of 7 buds. Deservedly popular! (Color illus. G-7, p. 67) 10 for 1.40; 25 for 3.15

1382 Little Diamond. NEW for '63! Formal spikes open 7-9 brilliant scarlet flowers, with as many unopened buds. Dark red throats enhance the brightness. (Color illus. G-4, p. 67) 10 for 1.40; 25 for 3.15

1247 Little Pansy. AAS. NEW! Light violet with velvety, deep-blue, Pansy-like markings. 30-32 in. high; open 16-18 flowers. 35¢ ea.; 3 for 1.00; 10 for 2.90

1252 Fairy Mixture. Dainty, elfin flowers that brighten your garden like a flight of butterflies! 10 for 1.30; 25 for 2.90; 50 for 5.50

"Smoky" Glads are unique! They are the only flowers to provide the greys and tans . . . the soft, muted shadings . . . which blend so well with modern decor. No discerning gardener or flower arranger should be without these beauties!

1258 Blue Smoke. NEW! A real addition to the "Smokies"! Beautifully ruffled 5-in. flowers give a luminous effect, even in dull weather. Throat is glowing salmon with a hint of rose at the lip. Outer edges shade to a real "blue smoke" . . . difficult to describe! Opens about 9 flowers on a straight, 22-bud spike. Unique! Supply limited. (Illus. C below)

3 for 65¢; 10 for 2.00; 25 for 4.50

1177 Copper Lustre. A most intriguing combination of colors — dusky deep rose, with copper shades on the edge, dark tan center and rich red throat. (Illus. A below)

10 for 1.40; 25 for 3.15

1263 Prairie. NEW! Do you enjoy flowers that are different? This is! Big, 5-in. flowers are dusky, dark chocolate. Throat is lighter, with velvety red markings. 4-ft. straight spikes open 8 well-placed flowers at once. (Illus. D below)

10 for 1.40; 25 for 3.15

SMOKY VARIETIES, Continued

1193 Persian Rug. A smooth blend of muted plum and luscious rose with cream throat makes this beauty as strikingly exotic as the fabled "magic carpet"! (Illus. E below)

AMARYLLIS SEED

F0150 Man From Mars. NEW for '63! (Illus. B above) Now, for the first time, a giant red Hybrid Amaryllis from seed! Easy to grow, they start to form bulbs at once and flower in 2 to 3 years. By that time, each bulb will be worth many times the cost of the package of seed. Flowers are tremendous — 8 to 9 in. across — as many as 5 on a stem! Color is pure, brilliant red.

Easy To Grow From Seed

Growing Amaryllis from seed is amazingly easy — and very rewarding. Seed germinates in a little over a week, forming tiny bulbs at once. The simplest — and most interesting — way to sprout these seeds is to float them on a saucer or shallow dish of water. They'll sprout very quickly and may be transplanted to small pots in a few weeks... usually with no losses whatsoever. Use 2½ or 3-in. pots at first.

1. Caladiums will do well outdoors where summer daily temperatures average 70° or more. This includes most of the United States except the extreme northern section.

2. They are very much at home in deep shade . . . where little else will grow . . . providing masses of gorgeous color to brighten dark corners. They do well in semi-shade and also in full sunlight. When grown in full sun, they should not be allowed to become dry.

3. Bulbs may be started indoors as early as February 15 and transplanted outdoors when weather is settled warm. They do not like cold weather. Caladiums, of course, do well in pots or tubs used as patio decorations or in window boxes.

4. Bulbs planted directly into the garden when soil is warm (after Memorial Day in the latitude of Boston) will produce magnificent plants in less than a month!

BILLOWY FLOWERHEADS OF EVERCHANGING BEAUTY TREE HYDRANGEA

(Hydrangea Paniculata Grand, Tree Form)

This amazing small tree bursts forth into bloom the very first year — in as few as 60 to 90 days after planting. You'll thrill to the lavish abundance of tier-upon-tier of huge blossoms! You'll thrill to its ever-changing beauty of color, too . . . this year and for a whole lifetime. Big, gorgeous blooms start in July, when they are **green** in color. August changes them to **white** and they are bright **pink** in September. October's coolness changes them to **deep bronzy purple**.

You'll never tire of this lovely small tree . . . which will never outgrow its surroundings. Extremely hardy, it grows and blooms in any soil, even in shade . . . yes, even under adverse city conditions. Plant as a specimen or in groups of three to spotlight your home. (Color illus. A above)

Superb specimens, 3 to 5 ft. tall. Postpaid.

GIANT BLUEBERRIES

PICK GIANT BERRIES UP TO 2 IN. AROUND!

Pick huge crops of Giant Blueberries for eating, for delicious pies — freeze them for year-round enjoyment. We offer three varieties — **early, mid-season and late** — for maximum crops and longest season of fruit. (Color illus. C above)

Every spring, these bushes are covered with exquisite blooms . . . loaded with huge clusters of giant berries in the summer, berries so big that 15-18 fill a fruit dish. The waxy green foliage is beautiful in itself — semi-evergreen, but turning brilliant orange-red every fall. Bushes grow 3 to 5 ft. tall and last a lifetime.

BURNING BUSH

(Euonymus alatus compactus)

HARDY! DWARF!

DAZZLING FALL COLOR!

Your Burning Bush will amaze you — year after year — season after season! Its clean, dark-green foliage shows the soft yellow spring blossoms to perfection. Summer brings a wealth of orange berries, but the most amazing, most remarkable transformation is in autumn when every leaf turns to flaming scarlet. This color is so vivid, so breathtaking that the whole bush seems to be on fire as the colorful leaves dance in the breeze. Even in winter, the strange, winged bark attracts attention.

So easy to grow, too! Grows even in semi-shade. Seldom needs pruning as growth is very compact and sturdy. Full size is 4-5 ft. high — 3-4 ft. wide. Plant one or more as specimens, where you can revel in their beauty — or use as a hedge of traffic-stopping, fall color. (Color illus. D above)

15-18 in. Well-branched, heavily rooted. Ppd.

Beauty and Protection with LIVING FENCE

World's Toughest, Fastest Growing Hedge!
(*Rosa Multiflora*)

Planted in the spring, this hardy, fast-growing shrub rose will show you 3 to 4 ft. of sturdy protection by summer. A beautiful, practical and inexpensive fence for farm plot, property line or large garden. Grows in almost any soil. The spicy fragrance of the pink and white flowers, plus an abundance of red berries in the fall, adds even more to this attractive hedge.

Rosa Multiflora will protect your property against trespassers, children, animals . . . even against sheep and cows the year round. No support required. Can be used to reinforce any existing fence for more protection.

Strong, healthy plants are cut back to 18-24 in. for shipping and to help them branch even more rapidly. Full grown hedge is about 8 feet tall. May be kept to lower heights by clipping once or twice a season. Use 25 plants to each 40 ft. of hedge. (Illus. A) Postpaid.

Landscape-Size LOMBARDY POPLARS

(*Populus nigra Italica*)

• Big Tree Beauty Quickly!

• Grows 5-6 Feet A Year!

• Roof-High in Just 2 Seasons!

Here's a tall, slender, pillar-like tree that will amaze you with its quick growth. Growing up to 5-6 feet, each year, they soon reach their ultimate height of 30-50 feet, clothed from top to bottom in glossy, rich green foliage which dances and sparkles in the slightest breeze.

Lombardy Poplars make amazing tall specimens when used as accents in your garden planting. They create a **living wall of beauty** when planted six feet apart to screen out an unsightly view, give you privacy from the eyes of strangers, protect your garden and home from high winds.

Easy to grow, they'll thrive in any soil — even in wet spots. Summer breezes filter through the branches to cool you, grass grows right up to their trunks. The delicate tracery of the branches is beautiful even against a winter sky! (Illus. D)

Year 'Round Beauty With

WHITE CLUMP BIRCH

• Spring — Beautiful early catkins

• Summer — Cool airy shade

• Autumn — Bright yellow foliage

• Winter — Shining white bark

What can add more year-round beauty to a home than one . . . or several . . . groups of three or more lovely, graceful White Birches? You'll know that spring has come when the Birch catkins open. You'll gaze, enraptured, at the delicate pattern of sun and shade on your home and lawn as the leaves flutter in the lightest breeze. Look at the lovely homes you see pictured. What trees do they show? White Birches, of course — they always add beauty to a home or lawn. And the autumn color . . . clear, bright golden yellow that shines in the sun to light your whole neighborhood. Even in winter, the snowy-white bark, etched with contrasting black lines, makes spring seem nearer. Best of all, your lawn will be green right up to the trunks even when they reach their full 25-30 ft. height. (Illus. E)

- Grow Your Own Christmas Decorations!

Brighten your lawn and home at Christmas and all year 'round with decorative Holly trees! Hollies are beautifully shaped, pyramidal evergreen trees with bright red berries. Hardy from Massachusetts southward, they will stand full sun or partial shade . . . grow best in acid soil with plenty of humus. All plants are selected for best performance and hardiness in the locality where you will grow them — **in your own garden!** If your local climate is no colder than Massachusetts, you can grow these beautiful trees to perfection, enjoying their glossy foliage and shapely beauty the year round, their colorful red berries every fall and winter. Berries are borne on female plants. One male is included in each grouping to insure pollination. Branched 9 to 12 in. high . . . marked to show sex. (Illus. A above)

BRECK'S VELTurf LAWN SEED — FOR THE NORTH

- 100% Permanent Turf Grasses!
- Results Guaranteed
- Millions of Seeds in Every Pound!

Only the newest and finest strains of Bluegrasses and Fescues are used in Breck's Velturf Lawn Seed. Thick, dark-green and velvety-textured, with deep penetrating root systems, they produce a long-wearing, drought-resistant turf with that much-to-be-desired Country Club look you have always wanted!

Balanced Blend For Beauty, Durability

Breck's Velturf is a perfectly balanced blend, the result of years of experiment and observation, containing five 100% permanent turf grasses — no fillers — no chaff — no cheap "nurse-grasses"! High germination produces quick sprouting, fast growth to form a thick, heavy turf that keeps out weeds of all kinds.

Velturf Costs Less Per Square Foot!

Good lawns grow from seeds, not pounds! One pound of Breck's Velturf contains millions of pure, high-germinating seeds — more than six times as many as typical cheap mixtures. It covers more area and produces better, more permanent grass that does not require seeding year after year.

Guaranteed Results!

TWIST-EMS . . . HANDY PLANT TIES

- Just Twist — It's Tied!
- Won't Harm Plants!
- Safer Than Wire!
- Stronger than String!

Strong, broad, flexible, dark-green tapes with invisible wire reinforcing are so easy to use! A simple twist of your wrist, and plants are tied — quickly and securely!

Much better for plants than string or wire . . . they won't damage even the tenderest stems!

Inexpensive way to permanently support flowers, vines, annuals, vegetables. Dark green color blends inconspicuously with foliage. They provide needed support without that unsightly "string-tied" effect — especially desirable in attractive flower beds and gardens! Waterproof material retains its appearance and weather-resistance over a long period of time. Available in 8-in. and 16-in. lengths.

(B) EXTEND-A-STAKE "GROWS" WITH PLANTS

The newest idea in plant support! Does the work of three stakes — saves changing as the plant grows! Extend-A-Stake has three sections . . . each one a complete stake . . . made of hardwood and painted foliage green. Bottom section is 36x¾", center 24x¼", top 18x¼". Use separately or assemble them as one strong stake, over 6 ft. long. Each section is drilled to fit into the next section (see illustration). No screws or clamps are necessary. Start with bottom section when plant is small . . . add center and top sections as it grows taller. Perfect for Dahlias, Delphiniums, Lilies, etc.

Breck's Country Life "MOOSE HILL" WILD BIRD FOOD

Our own famous mixture — for years the choice of experts — is now the officially approved "Moose Hill" mixture of the Massachusetts Audubon Society. Mixed to strictest specifications, it contains nothing but the choicest re-cleaned ingredients and, because it contains no "filler" seeds, it will be eaten to the last seed! (All seeds are not eaten by birds that normally inhibit your garden.) Years of testing have shown us which seeds are most desirable. Sunflower and Peanut Hearts are included in extra generous quantities. Millets and other proven favorites make up the balance of this famous mixture. Use Country Life in your feeders and watch the difference! More birds will use them — and there will be no wasted seed.

(E) BIRDNER FEEDING STATION

This unique wild bird feeder was specially designed by an outstanding authority after years of observing feeding habits! Colorful, weather-resistant, heavy plastic Birdner has six individual feeding and perching stations — each accommodating only one bird at a time! "Personal" perches prevent crowding and fighting. Completely sanitary — birds don't stand in the seed; droppings always fall to the ground. See-through plastic reservoir stands 16½" high, holds two generous pints of seed — prevents needless waste! Big 10½" canopy protects seed and perches from rain or snow. Free-flowing seed cups. Convenient top hole for hanging.

R3625L Birdner. (2 lbs.) 3.95

(F) COUNTRY LIFE HANGING FEEDER

Automatic bird feeder cares for hungry songsters through wintry cold! New twist-top design in foliage-green plastic for easy refilling. Crystal-clear plastic reservoir releases over 2½ lbs. of food into tray as needed — automatically! Hang anywhere — from tree limb, bracket, etc. 12" canopy wards off rain; drain holes in tray keep food fresh.

ATTRACT HUMMINGBIRDS!

The hummingbird — one of the loveliest and most admired of birds — is seldom seen unless your garden offers a special inducement to these tiny arrow-fast darters. Lure them with a Hanging Feeder! Just fill with sugar-sweetened water or honey, hang by attached wire near places where hummers have been seen feeding, then watch your garden come alive as they light among the blossoms! You'll be fascinated for hours by these fragile, unique gems of beauty. They're the only birds able to hover motionless or fly backward — fascinating to watch! Hummers must feed regularly to stay alive. The more feeders you provide, the more hummers you invite. Weatherproof Pyrex feeder, with no-drip tube, keeps nectar fresh at all times. Be sure to hang several feeders on the brightly-colored flowers and shrubs around your garden or patio!

PLASTIC MIRACLE MULCH

- Black, Sunlight-Resistant Polyethylene

Easy-to-use Black Plastic Miracle Mulch helps you grow bigger, better, earlier plants with much less work! Rolls are 100 feet long in widths to suit your own needs . . . easy to cut to any length or width for special places. Miracle Mulch may be used in many different ways — its possibilities are almost endless as a garden helper! It will act to keep down weeds (saving you work), while retaining whatever moisture and warmth are in the soil (saving you watering!). You can place it along the sides of rows of already established plants, or holes may be cut at intervals to allow new seeds or plants to grow. Tested and proved effective by home gardeners and professionals. Full directions included.

JIFFY SALAD GARDEN

Pre-Seeded Roll-Out
Vegetable Planter

Enjoy a summer of garden-fresh salads with pre-seeded Jiffy Salad Garden! Eleven different varieties, including Lettuce, Corn Salad, Cress, Beets, Kale, Tomatoes, Radishes and Turnips, are scientifically pre-planted in a specially prepared cellulose mat. Just prepare the soil by loosening the surface, spread the mat and cover with a thin coating of soil. Keep moistened as necessary, and you'll harvest mouth-watering salad vegetables in a few weeks. 8"x90" cellulose mat protects seeds and holds moisture around them, keeps weeds from sprouting, may be cut to any size. Jiffy Salad Garden is easy to grow, even if you've never tried to grow vegetables — you'll be pleased with the results!

HATCH-A-PLANT GREENHOUSES

Choice of CACTUS or COLEUS

- Easy To Grow!
- Educational And Intriguing
For Adults & Youngsters!
- Guaranteed Results!

Enjoy the fascination of seeing a Cactus or Coleus nursery grow right in your own home! Educational fun for plant lovers of any age and especially for children — it gives youngsters the joy of actually watching seeds germinate and grow, day by day! Large, domed plastic egg greenhouse contains special scientific growing material — you simply add seeds (included) and water. Within a few days, your little Cactus or Coleus seedlings will come peeping up . . . then continue to grow and grow . . . while you watch them, intrigued, through their transparent windowsill greenhouse that helps retain needed humidity. Hatch-A-Cactus provides the beauty of the desert in your home, office or classroom; Hatch-A-Coleus produces a striking mass of greenery in a very short time, then bursts into leaves of loveliness. Both require little care, are guaranteed to produce many plants that you can transplant later to regular plant pots.
